Leading the Way in **Innovation** and *Design*

A Vision For The Future

Barbara Barron had a passion for creating artistic wall and window art. Her art was handcrafted and each piece was unique. In 1972, Barron Designs was created. Over time, Barron Designs evolved wall art into what is known today as architectural decor.

Revolutionizing Architectural Decor

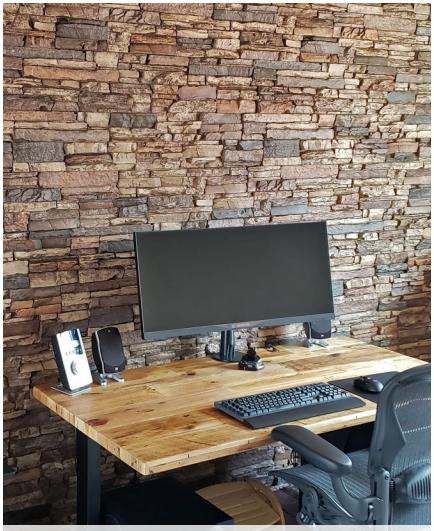

Through continuous innovation, our products are lightweight, incredibly realistic and easy to install. Made of high-density, closed-cell polyurethane, they are moisture resistant and will never rot, peel or crack. Our products are also available in a fire-rated polyurethane for additional protection.

Trend Inspired

With years of pioneering experience in architectural decor products, Barron Designs has built its legacy on staying ahead of the curve. Our designers are always considering industry trends and looking for new ways to help our customers tie together their desired looks.

Still Innovating

Nearly 50 years later, Barron Designs continues its legacy of innovation in coordinating architectural panels, beams, planks, mantels, arches, columns and more. Our panel products are interlocking, which allows for seamless installation.

PANELS

BEAMS & MANTELS

COLUMNS
